SIX MONTHS.....75  
WEDNESDAY, OCT. 13, 1897.

At last the cotton reporters are admitting that cotton is short, but good in quality. This admission comes after the price has gone down to about the cost of production.

The report of Commissioner Vance to the State Board of Control, last week, shows that, as compared with the same month of last year, the dispensary sales for September have fallen off \$37,355. No doubt this is on account of the encroachments of the original package business.

Governor Ellerbe is sending circular letters to all the white ministers of the State asking them for expression of opinion as to the decrease or increase in drunkenness, and also for an expression of the views of "your people" on prohibition, the dispensary and high license, under the constitutional restrictions.

We are indebted to Messrs. Latham, Alexander & Co., of New York, for a copy of the twenty-fourth annual edition of "Cotton Movement and Fluctuations." The volume has many special features besides the usual table of receipts, consumption, stocks, exports, and fluctuations, which can be found nowhere else in such concise form.

If hard work can accomplish anything, the approaching State Fair will be an unprecedented success. The management is putting forth all its efforts to secure splendid exhibitions, and the business men of Columbia will provide attractions during the week. In brief, the indications are that this will be a week long to be remembered in the annals of State Fair history.

The Southern Railway Company has extended an invitation to the New England Cotton Manufacturers' Association to visit the cotton mill centers of the South located along that system of railway and it is expected a large number of the members of the Association will accept the invitation. About 250 cotton mills are located on the line of the Southern Railway, and the number is increasing.

In Charleston last Saturday Judge Simonton, of the United States Circuit Court, handed down a decision in which he declares that where the people of a town have voted against the establishment of a dispensary in their midst an original package store cannot be forced upon them. The cases decided came up from Greenwood and Woodruff and the decision is claimed to be a victory for the State. This decision is what we expected, and is right and proper. If any town or County in the State decides to have prohibition it should be allowed to do so.

Supervisor King, of Darlington, has issued a circular letter to the other County Supervisors of the State suggesting that they meet in Columbia during the State Fair and perfect an organization, the object of which shall be to promote some scheme to arouse the people of the State for the improvement of the public roads and other public enterprises. The idea is a good one and we hope the meeting will be held. The people of Anderson County are already aroused on the subject of improved roads, and we lead the State in that respect. If our efficient Supervisor, Mr. W. P. Snelgrove, should attend the meeting, he could tell the other Supervisors of our excellent system and the many benefits already derived from it.

The question of a Graded School is being agitated by the people of Lowndesville, and the matter may be submitted to the people to vote upon in December. The moving spirits in this new and commendable departure are Prof. G. M. Moore, who now has charge of the Lowndesville High School, D. K. Cooley, J. T. Latimer and others. This is certainly a step in the right direction. Good school advantages never fail to increase population, which means increase in business and increase in value of real estate. The few extra mills voted to maintain the school for ten months would scarcely be felt by the individual tax payers, while the benefits accruing would be incalculable and lasting. Schools and Churches mean civilization, prosperity and happiness.

It is becoming more and more apparent that cotton raising is not a profitable employment by itself, and, unfortunately, we try to elevate it above everything else and make it our sole dependence. It is the one crop that brings money, we are told. But the money it brings is already spent in a great many instances in making the crop and that is certainly poor business. If we could cut out our big farms, selling to a

settlers, possibly this would induce greater diversity in farm products and thus rescue us from the curse of an all-cotton crop. As it is, the whole of our farm lands are staked on this one crop, and a partial failure or low prices brings paralysis to all business. Corn and wheat and oats and potatoes and cattle and hogs and poultry and vegetables and fruit—these are all kept in the background to give place to King Cotton, whose slaves the people are. It is a ruinous policy.

THE INTELLIGENCER has just put in a new and larger press, and this week greets its reader, in a new form. This will give us much more space and consequently much more reading matter, which we believe will be appreciated by our patrons. We propose to make the INTELLIGENCER more interesting than ever before, and from time to time add new features to it. As is well known, the INTELLIGENCER is not the organ of any organization or of any man, and will continue to advocate the principles of true Democracy and work for the best interests of Anderson County and the State of South Carolina. Politics, however, are not our forte. The INTELLIGENCER has always been a model family paper, and we shall continue to make it such in future. We can still boast of having the largest circulation of any County weekly in the State, and we hope to merit in the future the liberal patronage that has been given us in the past. In making this change we have gone to considerable expense, and we trust our patrons will show their appreciation of our efforts by a prompt response to our calls for remuneration for services already rendered.

Corner Creek Items.

Last Saturday night about 12 o'clock Miss Salie Adams' cotton house was destroyed by fire. It contained 3,800 pounds of seed cotton, all of which was burned except about 1200 pounds. The house had a shelter to it, which had a buggy and wagon under it, and they were burned. There was no insurance on the property. This is a great loss on Miss Adams, as she is one of our energetic farmers and makes her own living at home. The property was worth about \$100. It is thought to be the work of an incendiary. This is the third burning that has happened in this section during the past week. The first was a tenant house of J. H. Lomax, and the second was the mill and gin of Hoo, Joshua W. Ashley. Mr. and Mrs. E. C. Fruit, of Corinne, were visiting relatives in our midst last Sunday and Monday. Jim Pison is building a large eight-stall barn, which all farmers ought to have. Jim is a young, progressive farmer, and is bound to make a success. Well, our farmers are not done picking the short cotton crop and are ready to gather corn. Oh, the good times we have going to corn shuckings! Turnips are fine but are needing rain. TRO.

Rocky River Items.

Cotton is opening faster this year than it was ever known to open. Mr. R. M. Roe went to see his father in the mountains last Tuesday. Mr. Oscar Anderson, of Alice, went to Belton last week getting up subscriptions for papers. We are afraid that there will be too many cotton seeds sold this fall on account of the low price of cotton. If the farmers will make compost out of their seed and put it under corn and manure high and not work so much land and work it often, they would make more progress at it, and then plant the whole county in cotton and want a ton of fertilizer to go over it. We do not plant small crops and make high and work it often? You can't raise cotton and pay old debts at present price, 6 cents. Mr. Basil Alwine, of this place, who has been feeding the gin for Mr. J. J. Gally this fall, met with a painful accident the 30th of last month. He had just rang the bell to start on the first bale that morning and he saw a few seeds near the seed belt and reached down after them. In less than a second of time his shirt sleeve was caught by the saws and his left hand was drawn into the gin. There are not any leaders cut; only his little finger. It could have been worse, but as it is, it is bad enough. He was going to start to Columbia on the Saturday following. We wish him a speedy recovery. We never heard the like of people buying and selling land in our life. They are not standing back at the low price of cotton. Some of the people on the other side of the river have surely found a gold mine. We noticed a few weeks ago that a certain correspondent called our lawn parties "woods frolics." We always have a nice time and the girls enjoyed themselves. No sickness except Mrs. J. K. Mitchell, but hope she may recover soon. ISO.

Union Meeting.

The Union meeting will convene with Mountain Creek Church on the 15th Saturday and Sunday in October, 1897. Introductory sermon, Rev. Geo. B. Heron. Organized. RECESS. AFTERNOON SESSION. Subject: Will prohibition prohibit, if not, why not? The missionary sermon will be preached by Dr. Manly on Sunday at 11 a. m. Speakers: Rev. J. J. Beck, H. H. Watkins, Dr. R. F. Diver. J. B. FALTON, A. A. DEAN, OLIVER BOLZ, Committer.

Marvellous Revivals.

From a letter written by Rev. J. Gunderson, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvellous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with pneumonia succeding La Grippe. Terrible paroxysms of coughing would last hours with little interruption, and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery. It was quick in its work, and highly satisfactory in results. Total freedom from all her troubles. Regular sleep and food." Extracts from other letters: "I have used Dr. King's New Discovery in my family, and it has cured all our troubles. It is a great remedy for all kinds of coughs and colds, and it is so easy to use that even a child can use it. I have used it in my family for years, and it has never failed me. It is a great blessing to the human race." "I have used Dr. King's New Discovery in my family, and it has cured all our troubles. It is a great remedy for all kinds of coughs and colds, and it is so easy to use that even a child can use it. I have used it in my family for years, and it has never failed me. It is a great blessing to the human race." "I have used Dr. King's New Discovery in my family, and it has cured all our troubles. It is a great remedy for all kinds of coughs and colds, and it is so easy to use that even a child can use it. I have used it in my family for years, and it has never failed me. It is a great blessing to the human race." "I have used Dr. King's New Discovery in my family, and it has cured all our troubles. It is a great remedy for all kinds of coughs and colds, and it is so easy to use that even a child can use it. I have used it in my family for years, and it has never failed me.
